## Polyester Lanyards

Polyester imprinted custom lanyards are our most popular style of custom lanyard. These lanyards are made from a high-quality polyester material with your text or logos imprinted. Polyester material has a certain sheen to that gives you a quality product with a professionally finished appearance and top-quality product that can be used in a variety of situations. Each and every Lanyard undergoes the same strict manufacturing process to ensure a lasting and durable product that you will be proud to wear.

## Nylon Lanyards

Looking for the most detail possible on your custom lanyard design? Imprinted Nylon lanyards are a perfect option for detailed logos or images and offer a surface that allows for high detail silk-screening. Nylon lanyards are slightly thicker and reveal a more shiny appearance and are recognized for their sheen and smooth texture, they are extremely durable and will make your logo seem to pop off the lanyard.

### Dye Sublimation Lanyards

Looking for multi-color or full color logo printed lanyards. We have you covered. With new thermal printing technology your multi-color logo and text will be transferred to the exact colors on to the lanyard instead of imprinting. The materials used for the Dye sublimation lanyards are superior micro weave material which allows smooth surface for printing and feel. Whether it is the precise imaging, lasting durability, edge to edge printing or unlimited print color possibilities dye sublimation is the future of the custom lanyards.

### Woven Lanyards

Woven Lanyards are manufactured from strong, high-quality polyester material that will represent your company or organization extremely well. With a textured feel and the ability to "stitch" your text or logo into the lanyard they are what most people think of when they think of lanyards. Woven Lanyards offer a custom look for a variety of applications and will have your text and/or logos embroidered into the Woven polyester material.
