Virtually any fragrance can be encapsulated and made into Rub 'n Smell Scented varnish. Customers can supply their own fragrance oils or we can assist in sourcing or developing a specific fragrance upon request.

Customer Supplied Oils:

In Cases where client provide their own fragrance oils for encapsulation we request that the fragrance oils be prepared with the following criteria.

- Made with little to no water soluble materials
- Contain no alcohol or emulsifiers
- Have a boiling point above 100 degrees Celsius
- Be accompanied with a material Safety Data Sheet (MSDS)

The Minimum amount of oil that can be encapsulated is 1kg of oil (2.2 lb)
